

Installation and Set-Up

At the time of this writing (May 2009), we have not yet developed a downloadable or CD-based method for obtaining and installing the software. Rather, each individual agency is set up with their own version of the software on the Personal Essentials Pantry's server. Such set-up must be done via consultation and coordination with the Personal Essentials Pantry Coordinator, Christine Thompson.

To request a copy of PEPbase for your agency, contact the Pantry Coordinator at PantryCoordinator@zionmadison.org.
